Friday

No workshops on Friday

Spark of Brilliance Group Descriptions**Artist Chat (Virtual)**

Come join us for our last two artist chats leading up to the "Art Works for Mental Health Art Gala." These two sessions will be for artists who will be displaying art at the gala and are intended to address any concerns or excitement you might have about being part of the gala, boosting your confidence, and getting to know who else will be there!

Artist Meet and Greet (In-Person)

The journey to showcasing your talent can be both exhilarating and nerve-wracking. That's why we're hosting a unique meet and greet to provide a supportive space where artists taking part in the art gala

can come together, share your anxieties and excitement, and connect with peers who understand your journey. Whether you're feeling overwhelmed, excited, or a mix of emotions, you're not alone. Don't miss out on this valuable opportunity to connect, share, and support one another before the big day! Let's gather and empower each other on our artistic journeys. See you there!

Illustrated Journalling

(Usually) On the first Monday of each month, with some help from illustrator, Dylan Mierzwinski, and Skillshare, we will be creating color-filled illustrated journal entries in this beginner-friendly creative workshop series. We'll be taking a mindful approach to working together through illustrated journal prompts to promote calm and pressure-free creativity. The supplies are basic; a blank journal or loose-leaf paper, markers and pens (or whatever coloring tool you have lying around), scrap paper, and time set aside each month to support our mental health and creative wells!

Leap Write In

Inspired by "Leap Write In", by Karen Benke, this series invites your jittery mind into quiet slips of timed experiments that are designed to encourage your timid heart to forge forgotten feelings and entice your shy-self to make friends with emerging emotions. Explore all the wacky, confusing, brave, soul-stirring, wonderings and wanderings of your life's inner treasures through creative writing!

Lettering 101

If you have ever wanted to integrate lettering into your art and you don't know where to start, join us as we learn a few different styles of lettering, including faux calligraphy!

Nature Journal Series (5 Parts)

Discover the therapeutic benefits of nature with Heidi, horticultural therapist from the Guelph Enabling Garden. Immerse yourself in a unique workshop series where you'll create a captivating nature journal using materials sourced directly from the natural world. Participants are asked to attend all five workshops in the series to complete their project and fully benefit from the experience.

Needle-Felted Llamas

Learn the basics of the fibre art known as "needle felting" by creating a 3-dimensional llama!

Neurographic Art

Neurographic art is a simple way to work with the subconscious mind through drawing. This creative method stimulates new neural pathways by combining art and psychology. Neurographic artists know this type of art is a way to transform one's stress and fear by drawing freeform lines and then later using a specific algorithm to transform the stress into a beautiful work of art.

The Writing Life

This workshop, facilitated by writer and editor Mary Katherine Carr, will explore creative intuition and writing as a healing practice and force for positive transformation in the self and in our community. We will experiment with various forms of writing, including fiction, creative non-fiction, poetry, and letters, taking inspiration from writers past and present, from all around the world. We will share our work with one another when we feel inspired and comfortable doing so and provide supportive feedback, exploring our natural curiosity and instincts. Writing can be a self-care practice, as well as a vehicle for social change - your words are powerful!

- Have you ever felt disconnected from reality? Have you experienced thoughts, sensations, or voices that aren't entirely your own? Have you ever been told that your perception of the world may be different from others and that you might be experiencing symptoms related to schizophrenia or psychosis? This group is designed to support individuals who have experienced or currently are experiencing alternate realities. These realities may be troubling or enlightening, they may take away from your day-to-day functioning, or you may be totally comfortable operating within them. In this group we want to discuss all aspects of the alternate realities that we experience and deconstruct the idea of what is "normal." This group is for people who identify as having experienced hallucinations (auditory/visual/tactile), delusions, paranoia, confused or disturbing thoughts and are open to discussing ways to engage in these alternative realities to support wellness. This peer support group is a brave space to discuss these experiences from any perspective that you resonate with, as there are multiple ways to understand experiences of alternate realities. Please join Katie as we walk this journey together. For more information, please email Katie at kbillings@cmhaww.ca.
