100 Watercolour Challenge Continues

Back by popular demand! Join us for the 100 Watercolour Challenge—a creative journey of 10 paintings per week for 10 weeks – September 15 through November 17. Registered participants will receive more information upon signing up.

Guelph Fourth Thursday ATC and Sketch Drop In

Join us on the fourth Thursday of each month (Previously Fourth Friday) for a relaxed, no registration drop-in session dedicated to creativity and connection. Make and trade Artist Trading Cards (ATCs) or bring along your favourite sketchbook and a beverage to enjoy some unstructured drawing time.

Whether you're looking to swap tiny works of art, practice your sketching skills, or simply spend time with fellow creatives, this casual drop-in is the perfect monthly creative break

In Progress

Have a project that's been waiting for your attention? *In Progress* is a relaxed, supportive studio-style workshop designed for participants to continue working on art projects started in previous workshops or to bring a creative project from home. Whether you're painting, drawing, crafting, or experimenting with mixed media, this dedicated creative time offers an opportunity to focus, make progress, and connect with others in a welcoming environment. There are no formal lessons or expectations, just space, encouragement, and time to enjoy the creative process at your own pace.

Mixed Media Magnet Art

Turn everyday recyclables into colourful miniature works of art! In this creative mixed media workshop, participants will transform recycled lids into unique decorative magnets

using paint, collage materials, textures, and vibrant pops of colour. Explore self-expression, sustainability, and creativity while giving discarded items a new purpose.

Negative Space Watercolour

Discover the calming art of negative space watercolour in this beginner-friendly workshop. Using simple shapes, repeating patterns, and layers of colour, participants will create a vibrant watercolor design while learning how to paint around objects rather than painting the objects themselves. This gentle, meditative process encourages mindfulness, creativity, and experimentation without the pressure of drawing or detailed painting skills.

Same but Different

What happens when everyone starts with the same materials? In *Same but Different*, each participant will receive the same copy of UPPERCASE Magazine, generously donated to Spark of Brilliance by the magazine! Using the same collection of images, words, colours, and inspiration, we'll each create a collage or mixed media piece that reflects our unique perspective and creativity. This playful workshop highlights how differently we see, interpret, and express ourselves, even when working from the same starting point. There are no right or wrong outcomes, just an opportunity to explore, create, and celebrate what makes each of us unique.

Tea Cup Tales: Whimsical Needle Felting with Margaret

Join us for a charming needle felting workshop where imagination takes center stage. Participants will create a whimsical miniature scene nestled inside a teacup or tea canister using colourful wool and simple needle felting techniques. Whether you envision a tiny garden, a cozy woodland nook, a fanciful creature, or something entirely your own, this workshop offers a fun and creative way to bring a small world to life. If you have a special container you'd like to transform, feel free to bring it along in place of a teacup or tea canister.

The Answers are Within You

Join us for a unique writing and art workshop inspired by The Answers Are Within You by Amber Rae. Using the book's insights on self-discovery and personal growth, participants will explore themes of mind, body, and soul through creative expression. Writers will have the option to write from a first-person perspective for a more intimate, personal experience or experiment with second or third person to develop fictional storylines. Artists will have prompts available for expressing themselves visually. Whether you're looking to reflect on your own journey or craft new narratives, this workshop offers a transformative space to explore your inner world.

The Writing Life with Mary Katherine Carr

Led by writer and editor Mary Katherine Carr, this workshop explores creative intuition and writing as a tool for healing, self-expression, and positive change. Through fiction, creative non-fiction, poetry, and letter writing, participants will experiment with different forms of creative writing inspired by voices from around the world. In a supportive and welcoming environment, participants will have the opportunity to share their work, offer encouragement, and explore writing as both a self-care practice and a powerful way to connect with others and create change.

Self-Compassion

This workbook-based group uses *The Mindful Self-Compassion Workbook* by Kristin Neff and Christopher Germer to explore practical ways to be kinder and more supportive toward ourselves. Each session offers opportunities for guided activities, reflection, and group discussion to help build skills in mindfulness, emotional resilience, and compassionate self-talk. Participants will learn how to: reduce self-criticism; respond to difficult emotions with care; develop healthier coping strategies; and cultivate a more balanced, understanding inner voice. A digital copy of the workbook is provided by email so participants can follow along and practice between sessions.
